NEW MEMBER

Welcome to Sue Streeter, Tainui St., Ohakune.

SUBS. One final reminder that if you have not paid your subs. do not be surprised if next month you do not receive your newsletter.

GENERAL

We now have official letterhead paper for our club correspondence.

The club has sent a submission to the Independent Commission to investigate the proposal to raise Lake Manapouri. Anyone wishing to see this submission may apply to the Secretary, Kevin Pearce.

Federated Mountain club's Annual Meeting.

P.N.T.M.C. was ably represented at the annual meeting by Kevin Pearce. He informed the committee of the concern expressed over conservation of National Parks and the need to ensure that private concerns do not take over public lands.

Social Secretary.

David Ryrie has been co-opted to the committee to replace Denis Arnott who has departed to the sunless south. Dave has been appointed Social

Climbing

The Club has purchased another new climbing rope. This is to be used for climbing only and must have committee approval for other than club climbing trips.

Christmas Trip

Members are reminded that they should be giving serious consideration to whether they intend to go on the Christmas Trip. You will all realize that the Nelson Lakes National Park area in which it is to be held is the tops in tramping and enjoyment. You will help the organisers if you can definitely advise your intentions to Lawson Pither, Phone 85-616 as soon as possible. We have not had a Club Christmas Trip for several years so don't let this one fall down.

Trip List.

All members should have received a trip list with the last newsletter. Please keep this where you may be able to refer to it. Have you been out on a Club trip recently? It's only six months to Christmas and regular attendance on trips will assure fitness and enjoyment on the Christmas trip, so dust off those boots and come out on Club trips more often.

Kaimanawa Forest Park.

A letter to the F.M.C. from the Director General regarding access to the Northern areas of the Park notifies that a poled track goes through Poronui station to the Oamaru River, 14 miles and about 5 hours tramping. Negotiations are still going on with the station manager and it is hoped to have improved access.

PAST CLUB NIGHT.

Club members were treated to an amusing and interesting talk on the Antarctic, illustrated with slides, by Mr. Pat Liddell.

PAST TRIP.

June 20<sup>th</sup>/20<sup>th</sup>-21<sup>st</sup>. Rangiwahia.

On Saturday four enthusiasts and one dog made their way to the club hut, found they were the fourth party to arrive that day and spent the night in the rather crowded hut. Four more members arrived the following day and were delighted to see snow bedecked foliage in the vicinity of the waterfall. They found the track rather overgrown, but the slips in a stable condition, while the tramper is helped tremendously by the new wire.

Someone has been using sisalation in the fire and it has been leaving a deposit on cooking utensils and causing the stove to smoke badly. Would persons refrain from burning this material in the fire. Lawson's party mended a broken window, left a new saw, scrubbing brush and tin of Chemico, and fitted a new handle on the broom.

Trip members were: Lawson Pither, Michael ?, Peter Baxter, Warwick Blanchard, Russ Lacey, Heather Crabb, Ian Hoare, Grant Potter.
