#### PAST TRIPS

##### 15<sup>th</sup>-16<sup>th</sup> January COPPERMINE HUT – WHARITE – BILLY GOAT CREEK

Initiated by a late start, two apologetic females and three new members, Glenn's car took us along Beagley Rd. to Coppermine Creek, leaving behind the grey weather of the Manawatu for the blue skies of the Wairarapa.

Under Glenn's leadership we trailed our way up to the hut, splashing back and forth through the creek, through long foxgloves and yellow buttercups, while that contented feeling as one winds into the hills crept through us. Reaching the hut meant relaxing with each other and each other's habits. Cups of coffee in the peaceful sun (a cigarette or three for Glenn) and a few words set the tone for the whole trip. That was one of many stops and sleeps in the sun. It also introduced us to our hutmates.

By 11.00 a.m. we were on our way up to Wharite. We arrived at the top battling a very strong westerly at about 1.00 p.m. No place to stop so down we went a little for lunch; and back down to the creek by 4.00 p.m.

After a further blissful soak-up in the sun, Bruce, Annette and Carol left to find the Coppermine, forgetting we would require a torch. No matter, it was just a pleasant exploring further up the creek.

Next day we waited for the Day Trippers: no hurry!

Anne flux joined us and we headed off to Billy Goat Creek. Anne discovered that to sit on an ant's nest is not a comfortable experience!

As we had promised Heather to be back at the hut by 3.00 p.m. and did not relish the thought of returning the way we had come, there was a unanimous decision to travel down the creek, then walk back across the farmland over the hills. This proved very worthwhile, although it was a little further than anticipated. The view up to Hawkes' Bay, the warmth and the strong wind all contributed so that we returned to Heather feeling it had been a most successful day.

Those participating: Glenn Osborned, Carol Nash, Bruce Stout, Annette Freeman, and joined by Anne Flux.

#### 6<sup>th</sup> January COPPERMINE CREEK

One of the main requirements for a trip leader is to be on time. Well, our leader this time barely made it. Due to leave the Supersave Car Park at 7.00 a.m. she was woken at 10 to 7 by Helen banging at the door. Anne and Margaret being picked up from the Supersave and Wendy from her home, instant breakfast all round, we crammed ourselves into the Mazda, even in the boot, and set off for Coppermine Creek. There we met Glenn Osborne and his party. After a brew Anne joined the week-enders to go over to Billygoat Creek and rest of us wandered up the river to see what is left from the Coppermining days, a little bit of ironmongery and a shaft. We baked in the sun up at the waterfall and hunted for signs of copper.

Those on the trip were: Anne Flux, Margaret McKenzie, Helen Coutts, Wendy Tunnicliffe, Heather, Maire and Don Crabb.

#### 30<sup>th</sup> January FIELD'S HUT – ANNUAL PILGRIMAGE

Grey skies, mist, drizzle, mud, bogs – everyone agreed these didn't make a bit of difference anyway. We all enjoyed the trip up to Field's. There was no water there and when I arrived the rest of the party were lined up all holding out their mugs to catch the rain and one enterprising member scooping up rainwater from the roof. We had enough to boil the billy twice.

While we were finishing our lunch Ian and Glenn appeared from out of the mist and after being fed and watered set off down the track after a certain lady who, being cold, started first.

Near the cars we were nearly trampled underfoot by two more of the exhibitionist weekenders.

Trip members: John Carter, Heather Crabb, Julie Stout, Bruce Stout, Jan Simmons, Carol Nash, Annette Freeman, Roy Weaver, Jenny Barclay.

#### 5<sup>th</sup>-6<sup>th</sup> February CATTLE CREEK – TAMAKI CROSSING

Early on Saturday, February 5<sup>th</sup>, our party put on boots, swung packs onto backs and headed up the Pohangina River. The sun was shining and all went well until we reached some rather deep pools. When Viv., our leader, took an unscheduled swim crossing the river, it became clear an alternative route would have to be followed as our packs were not waterproofed for the occasion. After bashing up the bank we got onto the track, picked our

way across a perilous slip, and down again into the river bed where we all swam in a crocodile infested pool.

After a lunch stop and a brief visit to Mid Pohangina Hut those who didn't know what stinging nettle looked like soon found out on the way over the low ridge to Cattle Creek.

Travelling on up Cattle Creek we reached the place on the map where the hut should be – yet another map error. Half an hour upstream was the hut. The fly was pitched outside and a fire lit to cook a large billy of Dehy. A few fresh veggies were added amidst cries from some "Food value isn't important!" Then followed jelly and stewed apples. A mysterious noise in a billy over the fire, pop ....pop....pop.... proved to be popcorn which was quickly demolished. After a few songs everyone retired to pit. Those who were going to sleep under the stars were driven into the hut and under the fly by a few spits of rain. But no real rain fell, and the rest of the night was clear and clam.

We were rudely awakened by Ian's haka to commemorate N.Z. Day. Viv. Began to cook sago and apricots on the primus when we heard Ooh! Aah! -----! As the billy rolled to the ground. It was scooped up, museli added to disguise wood chips and a scrummy breakfast was had by all.

The party set off upstream over the saddle to Stanfield Hut where we met with the day trippers. Three of us climbed up to the ridge for the view. When they returned, after another popcorn session and perked coffee brew we took a leisurely stroll down river. We swam in the dam and were tormented by sandflies until at least, the chauffeur arrived.

Those on the trip were Viv. Mawson, Ian Hoare, Bruce and Alan Parker, Philip Budding, Carol Nash, Anne Flux and Jan Simmons.

#### 6<sup>th</sup> February WEST TAMAKI RIVER DAY TRIP

The 6<sup>th</sup> of February turned out to be one of those rare summer days with blue skies and no wind, so we set off from the Tamaki rest area in good cheer.

The river was only ankle deep so we made good time in reaching the Stanfield Hut. Leaving Heather to bask in the sun by the Hut, the others took to the hills for a steep but rewarding climb. After arriving back at the hut (the weekend party had arrived by then) we had lunch before setting off to give Ian Hoare a lift to Pohangina so that he could pick up the van before driving back to the Tamaki River to retrieve the weekenders.

On the way back we stopped at the Raumai Bridge for a lovely swim in tepid water.

Those on the trip were: Heather Crabb, John Carter, Mike Sullivan and Harry and Eric Verwey,

#### 9<sup>th</sup> January OHAU

Two persons, one medium fit and the other not so fit, who smokes too much but who shall remain nameless, tramped at a leisurely pace to North Ohau Hut. Here we had a brief stop and then onwards, stopping half way to South Ohau for lunch. After a spell of sunbathing and chit-chat they returned to North Ohau where Glenn had a swim and Anne only watched. On the way home both trampers agreed it had been a very enjoyable tramp and both vowed to become fitter – perhaps one could cut down on smoking!

Those on this easy sojourn: Anne Flux, Glenn Osborne.
